

The following table cross references sites identified in the main text (VERSION 03), providing the following:

- **PRN** - (Unique reference number) for relevant site and event records in the regional HER (Historic Environment Record)
- **NGR** – National Grid reference
- **SM number** – Scheduled Monument number, if appropriate
- **NPRN** – Unique reference number in NMR (National Monuments Record) held by the RCAHMW (Royal Commission on the Ancient and Historical Monuments in Wales)

This exercise was undertaken in February 2017, and PRNs and NPRNs may now exist for sites for which one could not be identified. Links to online resources such as the National Monument Record (NMR) and the Historic Environment Records (HERs) are given on the Further Information webpage

Bibliographic references are to be found in a separate document - Version 03 Bibliography Additions
